Extech

Instruments

Extech Instruments is one of the largest suppliers of test and measurement equipment worldwide. Founded in 1971, Extech is known for its depth and breadth of high quality testers and meters.

Extech innovates with instruments that offer exclusive combinations of features such as Extech's patented built-in infrared thermometer. The company is ISO 9001-2000 certified and is a wholly owned subsidiary of FLIR Systems, Inc.

We have moved into our new facility and doubled our warehouse space.

That means we have a tremendous inventory of quality equipment.

Dickson

The source for top-quality instrumentation for capturing critical data

Dickson sells precision instruments that monitor and record temperature, humidity, pressure, indoor air quality, electronic signals and air flow. It's highly probable that Dickson has touched your life many times this year.

Wherever data is critical, Dickson technology provides a best-fit solution for application and regulatory requirements.

Dickson's design engineering focus has always been on incorporating cutting edge technology into its' expanding line of monitoring instruments. The current line of chart recorders and data loggers has been enhanced by a line of paperless data loggers and a wireless monitoring system.

The accuracy of Dickson instruments is assured.
