

# TDS Now SELLS New Test Equipment

in addition to Renting or Leasing

## VENDOR SPOTLIGHT

Monarch - Data Recording Instruments

Pelican - Lighting and Transport Cases

### Monarch Instrument

Monarch Instrument has been a pioneer in the development of paperless data acquisition systems for over 15 years. The utilization of state of the art technologies to develop intelligent, powerful and intuitive products has made Monarch Instrument's DataChart product line a global leader in paperless recording technology.

The DataChart 6000 is the most advanced Paperless Recording system available. It incorporates the latest in measurement, communication, interface and processing technologies to deliver unmatched performance for your customers' data acquisition application.

One of the features we are very proud of is using the high-resolution touch screen interface and the integral stylus you can make notes or comments directly on the chart (see below). This on-screen annotation is stored within the data file directory and can be recalled

## Pelican

### Lighting and Transport Cases

Pelican™ Products began as a part-time mail order business and has evolved into a global leader in the design and manufacture of advanced lighting systems and virtually indestructible cases for protecting valuable equipment. Their products are considered the gold standard around the world and are backed by a legendary lifetime guarantee: "You Break It, We Replace it...Forever."™

Pelican's latest innovations include:

**9430 Remote Area Lighting System (RALS)** - A compact, 22-pound, portable area lighting system. Built with versatility in mind, the system features a swiveling telescope mast (extends to nearly 3 feet), a 360 degree articulated light array and a wide area handle for easy gloved grip and transport. The 9430's 24 next-generation LEDs and dual power mode (with water-proof switch) radiates 2,000 lumens in high and 1,000 in low. Powered by a 15-hour rechargeable battery, the system offers up to 8 hours of peak brightness and takes 7 hours to be fully charged. With an extremely durable, water-resistant, polymer construction the 9430 is available in black and yellow.

**Pelican Products 1510 Laptop Overnight Case (LOC)** - A legendarily tough, watertight case designed for road warriors who want to protect their laptops and not waste time at the airport luggage carousel. The 1510 LOC lid features a detachable neoprene sleeve that gives travelers immediate access at Transportation Security Administration (TSA) checkpoints and accommodates the vast majority of laptop computers up to 15.4 inches.

The case additionally features a separate roomy detachable pouch that can double as a cord holder or a toiletry bag. The main compartment sports a cloth-lined garment storage unit that can fit up to two day's worth of clothing. The dimensions of the case itself are based upon the maximum overhead bin size allowed by airlines and offers nearly 1,800 cubic inches of usable storage space.

## TDS is your ONE STOP SHOP for quality Test Equipment

### Equipment in Stock and Ready-to-go

We have a tremendous inventory. That means we have the equipment you need, on the shelf, and its available for next day delivery.
