TDS Sells New Test Equipment! *Amprobe Test Tools*

Technical Diagnostic Services is proud to announce our newly formed partnership with Amprobe instruments to sell their full line of quality products.

Amprobe® offers a wide range of devices, which are the preferred choice of professionals for testing and measuring electrical properties in various field applications. Amprobe's feature-rich products have a reputation for high reliability at competitive prices.

Primary products include clamp-on ammeters, power quality analyzers, Multimeters (volt/amp/ohmmeters), and circuit tracers. Amprobe® is moving beyond test equipment to become a world-class supplier of testing, monitoring, and problem-solving instruments. Most recently Amprobe® has moved its focus to become the specialist in Power Quality (PQ) equipment, offering a full range of sophisticated equipment for field measurement and recording of PQ variables such as power, energy, harmonics, spikes, sags, surges, etc.

To achieve this goal, and its growth targets, Amprobe® is accelerating new product development, pursuing software-smart products and solutions-oriented products. Amprobe's new product development efforts include updating traditional products, enhancing the features of existing products, and introducing new products.

TDS is a National Distributor for These Fine Manufacturers
