

## Meet your New TDS Calibration and Repair Manager

*Technical Diagnostic Services, Inc.*

**Technical Diagnostic Services (TDS)** would like to introduce Rodney Taylor as your new Calibration and Repair Manager. Rodney has replaced Craig Nelson, as your point of contact for providing Calibration and Repair. Rodney offers over 19 years of experience in the field of Calibration and Repair. Technical Diagnostic Services will continue to provide the same great Calibration and Repair services you have come to expect from TDS.

**Unexpected equipment failure costs you time and money.** Quality and efficiency loss due to equipment inaccuracies can't be measured.

To ensure that your equipment functions right the first time and every time, TDS is committed to the highest possible quality standards. We will keep your test, measurement, process, electrical testing and calibration equipment at a consistent high level of operation and accuracy. TDS is dedicated to ISO standards in controlling our own processes and quality of support. The TDS quality system complies with ISO/IEC 17025. All calibrations performed are traceable to the National Institute of Standards and Technology, and conform to the requirements of ANSI/NCSL Z540-1, and ISO/IEC 17025.

Please give us a call today to find out how our Calibration and Repair services can benefit you!
