

Need OSHA training? Here are some upcoming TDSTI OSHA Training Classes

Technical Diagnostic Services Training Institute (TDSTI) now offers a total of 42 OSHA classes and seminars for you and your company. Please see our [2009-2010 OSHA training course schedule](#). Below are a few of our upcoming OSHA courses that we would like to highlight.

Trainer Course for the Construction Industry (OSHA 500)

This trainer course is designed for personnel interested in teaching the OSHA 10- or 30-Hour Construction Outreach courses. Special emphasis is placed on required topics in the OSHA Outreach Program. Various instructional approaches and the effective use of visual aids and handouts will also be covered. Course participants will work in groups or independently to practice their presentation of selected topics. (Participants are encouraged to bring a laptop to work on presentation materials.) A written examination is given at the conclusion of the course. Successful completion of the course and the final examination allows the participant to be recognized as an OSHA Authorized Outreach Trainer for the Construction Industry. Prerequisite: Five years relevant experience in the construction safety and health field AND completion of the OSHA 510 course.

Price: \$695 per student

<u>Date:</u>	<u>Location:</u>
Oct 20-23, 2009	Austin, TX
Nov 2-5, 2009	El Paso, TX
Nov 30-Dec 3, 2009	Albuquerque, NM
Dec 14-17, 2009	Baton Rouge, LA

Trainer Course for General Industry (OSHA 501)

This trainer course is designed for personnel interested in teaching the OSHA 10- or 30-Hour General Industry Outreach courses. Special emphasis is placed on required topics in the OSHA Outreach Program. Various instructional approaches and the effective use of visual aids and handouts will also be covered. Course participants will work in groups or independently to practice their presentation of selected topics. (Participants are encouraged to bring a laptop to work on presentation materials.) A written examination is given at the conclusion of the course. Successful completion of the course and the final examination allows the participant to be recognized as an OSHA Authorized Outreach Trainer for General Industry. Prerequisite: Five years relevant experience in the general industrial safety and health field AND completion of the OSHA 511 course.

Price: \$695 per student

<u>Date:</u>	<u>Location:</u>
Oct 14-17, 2009	Woodward, OK
Nov 2-5, 2009	Baton Rouge, LA
Dec 7-10, 2009	Arlington, TX

Standards for the Construction Industry (OSHA 510)

This course covers the OSHA standards for the construction industry found in the Code of Federal Regulations (CFR) 1926 along with other relevant policies, procedures, and safety and health principles for the construction industry. Special emphasis is placed on those areas that are the most hazardous and most frequently cited by OSHA.

Price: \$595 per student

<u>Date:</u>	<u>Location:</u>
Oct 19-22, 2009	Arlington, TX
Nov 2-5, 2009	Albuquerque, NM
Nov 16-19, 2009	Austin, TX
Dec 7-10, 2009	New Orleans, LA

Standards for General Industry (OSHA 511)

This course is excellent for entry level personnel as well as cross-training different disciplines and others with the need to learn the proper technique and safety for using I&C tools. Emphasis is placed on both personal and process safety. The students will learn how to safely and properly use electrical tools, testing and troubleshooting in real life situations.

Price: \$595 per student
