Electrical Power System Emergency Restoration & Re- Powering

Electrical Power System Emergency Restoration & Re-Powering TDS is an international electrical power and I&C testing, startup & maintenance, and test equipment company with over 30 years of experience.

We have experience making assessments and restoring electrical power after disaster situations.

We did this after numerous flooding situations, including working for the city of Homestead after hurricane Andrew and for FEMA and many corporations after Katrina.

We provide full line power restoration services, including:

- Assessment
- Recovery Scope
- Estimating
- Planning and Scheduling
- Procurement
- Implementation
- Documentation
- Measurement & Test Equipment

These services include the measurement, test and diagnostic equipment, as well as the technical personnel (Field engineers, Supervisors and Technicians). TDS currently provides these services on five continents. Within the United States, TDS can mobilize people and equipment within 24 hours when needed.

TDS can Offer
These Services to
YOU and YOUR
Company:

[Equipment Rental](#)
[Equipment Purchase](#)
[Calibration & Repair](#)
[Technical Training](#)
[Infrared Inspection](#)
[Asset Management](#)
[Windfarm Services](#)
